Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Alquist et al (US 5,717,990) in view of Gill (US 2,344,811).

In regard to claims 1-3, Alquist discloses a protection gear against harmful insects including a protection net made of a woven, ventilative cloth to cover one of a face and head 12, trunk 11 and that includes a cap, mask, sleeves, legs etc. with a fastener 13 as broadly claimed. However, Alquist does not include the insecticide on the fabric. Gill discloses the use of an insecticide on the fabric surface to prevent insect contact with the wearer. (See Gill, col. 2, line 18; page 1, col. 1, line 53 – col. 2, line 37 and Alquist et al, figures 1-5; col. 3, line 39-col. 4, line 28). Accordingly it would have been obvious to one having ordinary skill in the art at the time the invention was made to add the insecticide to the net garment of Alquist as disclosed in Gill to assist in preventing the contact with insects. Additionally, Alquist discloses the elastic frame 20,24 as seen in figure 5 and in col. 4, line 10-29). The strips are attached with an adhesive as described I line 21 of col. 4.

Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

None of the cited references, alone or in combination, disclose a net portion that is releasably attached to the frame with an adhesive that is covered by a paper portion when it is not in use on the net as claimed in claim 4.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

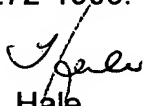

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
